DAILY DEMOCRAT FORUM

(Successor to the Maryville Republican)

VOLUME 2. MARYVILLE, MISSOURI, FRIDAY, AUG. 25, 1911. NO. 71.

THE BONDS CARRIED

ELECTION THURSDAY GAVE MAJORITY IN FAVOR OF ISSUE.

HEAVY VOTE WAS POLLED

All Four Wards Gave Majority and the Bonds Received Vote of Almost 4 to 1.

The bond issue of $100,000 to either buy or erect a water plant in Maryville received 674 votes for to 195 against Thursday in the special election. It required a two-thirds majority to carry the proposition, hence 390 was sufficient, and the proposition then has carried by 284 votes more than the necessary majority. The proposition thus got through with better than 3½ to 1.

With such a vote as 674 to 195 in favor of the bonds, it is evident that the citizens of Maryville were nearly unanimous in favor of the bonds and of the city controlling the water plant.

The vote the proposition received Thursday was a big surprise to many. It was not thought the bonds would carry by such a big vote. The total vote cast was 869, just a little less than is cast at the regular elections.

Since the bonds carried the city is in a position to solve the water question, which has been confronting us for several years. What action will be taken is not known at this time.

The bonds received their biggest vote in the fourth ward, where the issue received 294 votes for to 56 against. With the Fourth ward left out, the bonds carried in the other three wards by 102 over the two-thirds majority.

Quite an interest in the election was taken. Maryville never had such a friendly campaign as was had in the water campaign.

The vote by wards follows:

	Yes.	No.
First	134	36
Second	122	27
Third	124	76
Fourth	294	56
Total	674	195

Majority, 284 over two-thirds majority.

Total vote cast, 869.

MR. STREET COMING TO CONSULT MAYOR

E. L. Street, general manager of the City Water company, sent a telegram to the local manager, G. B. Roseberry, Wednesday as follows:

"We will reach Maryville Saturday morning. Arrange meeting with Mayor."

It is not known by Mr. Roseberry or the city authorities what is the object of Mr. Street's visit at this time, but no doubt it has something to do with the solution of the water question. It is thought that Mr. Street has a proposition to make to the city either of selling the plant or of a franchise. But since the City Water company has repeatedly stated that the company would rather sell out to the city than to have a franchise, it is thought that Stret will make some sort of proposition to sell the plant.

Spent Day in Arkoe.

Miss Georgia Custer and her guest, Miss Odessa Bordine of Pittsburg, Okla., went to Arkoe Friday morning and spent the day with Mrs. J. T. Goff.

State Organizer in Town.

John S. McClaskey of Hastings, Neb., state organizer for the National Benevolent society, arrived in the city Friday noon. He was a former resident of this city.

Attended the Maitland Fair.

Mr. and Mrs. E. A. Wright of North Fillmore street and Mr. and Mrs. Jordon Pease formed an automobile party to the Maitland fair Thursday. Mr. and Mrs. Wright went to Maitland Thursday evening to see Roy Zancker, who was injured in a fight at the Maitland fair Wednesday afternoon. Mrs. Zancker is a cousin of Mr. Wright. They found the injured man in a very serious condition and his recovery is regarded doubtful. Mr. Zancker is a brother of George Zancker, who formerly lived in Maryville, and they are nephews of Emanuel Zancker of Graham. Mr. Zancker has a wife and two children. His youngest child was burned to death last summer in Graham while playing with matches with a neighbor child. He has been in the employ of A. C. Snyder mercantile store.

ST. MARY'S SCHOOL

CONTRACT LET TO GEO. WALKER FOR NEW EDIFICE.

WORK TO START AT ONCE

New Building to Be Two Stories High, of Vitrified Brick, With White Trimming.

George W. Walker of this city was awarded the contract, on Thursday, for the building of a new building for St. Mary's Catholic school of this city. The entire contract of the building, excepting plumbing and heating, was given to Mr. Walker by the board of trustees of the church, who are the building committee.

The new school building will be located on the southwest corner of St. Mary's church property, directly south of the church building. Its size will be 40x50 feet, with two stories above the basement, and it will be a modern up-to-date school building in every respect.

Excavations will begin Saturday morning and the work will be pushed as rapidly as possible.

The building above the basement will be of vitrified brick, while black steel brick will be used in building the basement. White stone will be used for the trimmings.

It is the purpose of St. Mary's congregation to make the new school building the equal of any in the city in finish and equipment. The plumbing, heating and lighting contract will be let later.

St. Mary's school will open the first Monday in September in the old location, the basement of the church building, by two teachers from Atchison, Kan., and several others will be added later in the new building.

St. Mary's congregation and its pastor, Rev. Father Anselm, have several plans for the good of the school and students that are not yet matured or ready for publication.

St. Mary's new school will be a decided improvement to our city.

HER FATHER WAS A WABASH STATION AGENT

Miss Elizabeth Patterson of St. Louis and her aunt, Mrs. J. J. Sheridan of St. Joseph spent Friday afternoon in Maryville calling on Miss Patterson's old friends here, Mrs. V. W. Keene, Mrs. N. B. Lamar, Mrs. G. W. Turner, Miss Katharine Turner and Miss Elizabeth Turner.

Miss Patterson is a niece of the late Mrs. George Vinsonhaler of this city. Her father, L. W. Patterson, was the first Wabash station agent in Maryville and lived here with his family. He was succeeded by Mr. W. C. Pierce of this city, when he removed to St. Louis and was employed in the general offices of the Wabash until his death a number of years ago.

Miss Patterson is one of the leading teachers in kindergarten work in St. Louis.

SPOKE AT THE ELMO PICNIC THURSDAY

Dave Ball, ex-candidate for governor of Missouri; S. M. Jordan, the noted corn man of the state university, and Attorney Ellis G. Cook of Maryville were speakers at the Elmo picnic Thursday.

Mrs. Robert Hook of Hopkins was the guest of Mrs. Gallatin Craig Friday.

CO. F IN BATTLE

SERVED IN ADVANCE GUARD IN MANEUVERS AT NEVADA.

PRIVATE GRAY WOUNDED

Lieutenant Sisson Fell in River While Captain Cook Was Blown Six Feet in the Air.

Special to The Democrat-Forum.

Nevada, Mo., Aug. 23.—Early this morning orders were given to prepare for battle as quickly as possible. Company F was thrown into an advance guard with Sergeant Rush in command of the point, and Sergeants Bennett and Gray companding the flanks.

Colonel McDonald, in command of the first battalion, with Lieutenant Sisson as adjutant, gave the advance guard orders to watch for the enemy, the second battalion, who would be distinguished by a band of red on their hats. At 9:30 a. m., after a long search through fields and woods by Company F, the advance guards of the two armies met, and the skirmish was on. The entire defensive force under Captain Harper of Company K were soon engaged with the enemy, when a sudden flank movement by Company F started a rout among the attacking forces. All forces were then brought to bear with full strength on the front, and a battle royal lasted until 11:30 a. m., when maneuvers were brought to a halt for dinner. Company F did full justice to a menu of chicken, gravy, beef and coffee.

In the afternoon the first battalion was put on the offensive and the second battalion the defensive. Company F, under the command of Lieutenant Phipps, was ordered to ambuscade the enemy, with instructions to fire only when the main body was sighted. The guards were successfully passed and a terrific fire was poured on the enemy a few moments later.

A retreat was ordered and carried out successfully with a loss of only two men. Sergeant Gray and Private DeMotte were captured, but by a clever ruse and sheer bravery made their escape later, Gray receiving a slight bayonet wound in the side in his efforts for freedom. A second stand was made by Company F, but they had to fall back upon the main body, and throughout the rest of the engagement did valiant service.

Camp Notes.

During the day's engagement Lieutenant Sisson fell into the river while leading a retreat, but quickly climbed out and escaped capture.

Parade takes place every evening after supper, and it is a most imposing and impressive sight.

Last night the train from town was late and a number of the boys, among them some from Company F, had to run the guard lines before they could get into camp. No one was caught in the attempt.

Cooks Ryan and Snipes are some chefs and give Company F plenty of well cooked food.

Upon arrival in camp the first day about everyone in Company F were on duty continuously for twentyfive hours.

The first two night in camp five and a half inches of rain fell. A heavy wind accompanied it and blew down two of Company F's tents. Captain Cook was blown six feet in the air and let fall into six inches of water.

Captain Cook left for Maryville Tuesday evening, and on a farewell treat supplied the boys with a chicken dinner.

Benny Myers and Corporal Strader got lost in the battle and did not get back to camp until after the chicken dinner. "THE BOYS."

Coming to Visit Uncle.

Misses Ethel and Madonna Cox of Breckinridge, Mo., and Miss Katie Lee Allen of Nevada, Mo., will arrive in Maryville Friday evening and will be guests for a few days of their uncle R. C. Seal, and wife, of 104 North Vine street.

Mrs. Brown is Better.

Mrs. Gay Leeper received word Thursday from her brother-in-law, Joseph F. Brown of Kansas City, stating that Mrs. Brown was improving some and that the doctors considered the fever broken.

Attended Maitland Fair.

A. O. Mason and his daughters, Misses Stella, Mabel and Gertrude Mason; Miss Floy Lyle and Miss Clara Roelofson went to Maitland Thursday in Mr. Mason's car and took in the fair.

News of Society and Womens' Clubs

Informal Sewing Party.

Mrs. Harry Irwin entertained informally Thursday afternoon with a small sewing party for Miss Maud McMillen, who leaves soon for Duluth, Minn., where she is a member of the public school faculty of that city. The hostess and her guests were former school girl friends and neighbors. The afternoon was spent socially, while each employed herself at sewing or embroidery. A chafing dish luncheon was served by the hostess. Those present were Miss McMillen, Mrs. Arch Frank and little daughter, Eva Margaret; Mrs. N. C. Covey and her guest, Mrs. Truman Worst of Lincoln, Neb.

Gave Slumber Party.

Miss Amy Clark, daughter of Mr. and Mrs. A. T. Clark of the Ream hotel gave a slumber party Thursday night to celebrate her fourteenth birthday anniversary. Refreshments and other capers took place at midnight. The guests were of the "Jolly Six" club, of which the hostess is a member, and include Miss Vella Booth, Miss Mary Lewis, Miss Olivette Godsey and Miss Grace Parle. The club lost one of its members recently in Miss Inez Riggs, who went with her parents, Mr. and Mrs. C. W. Riggs, to Roscoe, Pa., to make their home.

Picnic at McJimsey's Park.

A picnic supper was given at McJimsey's park Thursday evening in compliment to Adelbert McMillen of Pickering, who will soon go to the university, and Mr. Errett Ingles of Des Moines, who is visiting friends in this city. The guests were: Mr. McMillen, Mr. Ingles, Miss Ora McMillen of Pickering, Miss Audrey McMillen, Miss Inez Bainum, Miss Phyllis Sayler, and Mr. and Mrs. Roy Wolfers and Fred Wolfers of Pickering, who came down in their car.

South Side Embroidery Club.

The South Side Embroidery club met Wednesday afternoon with Mrs. Herman W. Hull at her home, north of Maryville. The question that was to have been debated in regular forum style, "Resolved, that a careless, amiable wife is more to be desired than a painstaking, irritable one," was the subject of a general discussion, owing to the enforced absence of two of the four debaters chosen. A paper was read in favor of the careless, amiable wife that was prepared by Mrs. Edward Egley, and Mrs. W. T. Ramsey spoke for the irritable, painstaking wife. The general discussion followed and it was the general opinion of those present that the extreme in either case was sufficient cause for a divorce. Refreshments were served during the general discussion by the hostess, assisted by her daughter, Miss Myra Hull. The next meeting will be at the home of Mrs. W. O. Garrett, with Mrs. Garrett and Mrs. T. A. Wiles as hostesses. Subject for discussion, "Co-operation of parents and teachers on school grounds." The members present at Wednesday's meeting were Mrs. J. P. Frazee, Mrs. J. C. Farrar and Miss Eva Farrar, Mrs. M. A. Nicholas, Mrs. W. T. Ramsey and Mrs. M. D. Kemp. The visitors were Mrs. George Richardson, Miss Wilma Nicholas and Mrs. E. J. Carter.

For Mrs. Baldridge.

Mrs. Margaret Baldridge of Milan, Mo., who is visiting her sister, Mrs. W. H. Totterdale, was the guest of honor at a small dinner party Thursday, given by Mr. and Mrs. S. H. Townsend, with the assistance of their granddaughter, Miss Lora Stockton. The company included Mrs. Baldridge, Mrs. Totterdale, Mrs. S. J. Richardson, Mrs. Isabel Worst and Mr. and Mrs. Jonathan Sprague.

Entertained Four Sisters.

Dr. and Mrs. Jesse Miller entertained at dinner Friday the four sisters of Mrs. Miller, who include Mrs. Wilson Wray of Pickering, Mrs. Will Partridge of Maryville, Mrs. Lillie Owen and Mrs. Ethel O'Dare of Independence, Kan., who have been visiting here several days. Mrs. O'Dare and Mrs. Owen left for their home Friday evening.

Entertained at Dinner.

Mr. and Mrs. John M. Murrin entertained at 6 o'clock dinner Thursday evening Mrs. M. A. O'Hara of Indianapolis, Ind.; Mrs. Mary Haffey of Kansas City, and Miss Hazel Cunningham of Lamar, Col.

Entertained at Dinner.

Mrs. C. H. John and son, W. E. John, entertained at dinner on Thursday Miss Margaret Evans of Clay Center, Kan., Mrs. E. T. Rasmussen of Riverton, Neb., and Mr. and Mrs. H. T. Crane of this city.

MEETING OF CHAUTAUQUA COMMITTEE

A meeting of the soliciting committee for a permanent Chautauqua met Thursday afternoon, and after discussing the matter decided to see if more signers could be secured to take stock in the Chautauqua. Up to date only 150 have signified their intention of taking a share of stock in a permanent Chautauqua organization, each share to be $10.

Another meeting of the committee will be held September 1, and at this time a meeting of the stockholders will be called, so as to organize and go ahead with incorporating a permanent Chautauqua company for Maryville. It is thought that at least 200 ought to take stock in the company, and the soliciting committee intends to have that number by the first of the month. Those on the solociting committee are S. H. Kemp, W. M. Oakerson, G. B. Holmes, Thomas Wadley, Rev. C. J. Miller, Henry Thorp and Lewis White.

New Son at Fort Worth.

Mr. and Mrs. Phillip Burton O'Connell of Fort Worth, Texas, are the happy parents of a son, who arrived this week. Mrs. O'Connell is the daughter of Mr. and Mrs. Michael M. Callahan of near Arkoe, and was Miss Catharine Callahan.

Took Guest Home.

Mr. and Mrs. J. B. Robinson and their sons accompanied Mrs. Robinson's niece, Miss Lela Chilton, to her home in St. Joseph Friday morning in the Robinson car. Miss Chilton has been a guest in the Robinson home for several weeks.

Will Attend Funeral.

Dr. Grace Phelps went to Gallatin Friday, where she will attend the funeral on Saturday of her 4-year-old nephew, Robert Cravens.

Prof. R. E. McGann arrived in Maryville Friday morning from his home in Xenia, O.

MONEY AND THE BANKS.

The public does not realize the importance of safeguarding the general welfare in any legislation that may be proposed by Nelson Aldrich's currency commission. The money problem is complex. Every human being in America is interested in it.

In 1899 the stock of gold in this country was about $700,000,000. In 1905 it was nearly $1,400,000,000. During the same period population increased only 20 per cent.

In 1899 national and state banks made loans of $5,000,000,000. In 1909 their loans were $10,000,000,000.

In 1899 the issue of national bank notes was $237,000,000. In 1909 it had increased to $685,000,000. This huge bank note issue is secured by a gold redemption fund of 5 per cent or $34,250,000.

Ex-Senator Aldrich, as chairman of the monetary commission, may be counted upon to urge a currency system along the lines of his tariff bill—to benefit big business.

Congressmen should examine all currency bills with a microscope. They have ample time between now and the next regular session for such useful work.

If the country lacks confidence in Aldrich and regards him as a cold-blooded huckster in legislation for his own benefit and for the advantage of his New England mill boss friends, he has nobody to blame but himself.

Mr. Aldrich was never known to propose any measure for the benefit of the people.—Chicago Journal.

Colonel Roosevelt says: "I should regard my nomination for the presidency a genuine calamity." That makes it unanimous.

Senator Owen of Oklahoma says Champ Clark is the man for the Democrats to nominate for president.

President Taft is violently opposed to the recall. Maybe he is thinking of 1912.

They all read The Democrat-Forum.

SEES VICTORY FOR DEMOCRATS IN 1912

Champ Clark, speaker of the house, declared in Chicago yesterday that by election day, 1912, there will be two Democratic votes in the United States to one Republican vote. He foretold the approach of a great national prosperity that will triumph over the efforts of the "interests" and the political reactionaries to conjure a financial bogey man to discredit the constructive activities of the Democrats.

The popular election of United States senators and the purging of congress and a general downward revision of the tariff was a part of the speaker's prodiction of national reform. Mr. Clark also discussed aviation and the spectacular volplane recently made in the popular affection for Mr. Roosevelt.

"The Democrats will carry the next election by a majority of 2 to 1," he said. "I am not guessing. The tremendous growth of Democratic sentiment is too insistent to be misunderstood or easily overestimated.

To Win on Record.

"The reasons for the inevitable Democratic victory of 1912 are well known. The great record made by the Democrats in congress—especially in the house—has won the party hundreds of thousands of staunch supporters. The record of the Sixty-first congress did the work.

"By reason of that record we elected a Democratic house and replaced seven Republican senators and six Republican governors with Democrats. Every one of these senators and governors owes his seat to the work exhibited by the Sixty-first congress.

"And by the voters of the country the record established by the recent session will be considered first of all.

"At present a slight spasm of unrest is passing through the country as a result of the downward trend of stocks. But I don't believe the people can be fooled into believing that a national depression is impending.

Can't Hurt Conditions.

"The manipulators of the stock market are trying to frighten congress and terrorize the people, forcing a seeming condition of stagnation. The 'interests,' made desperate by the prospects of sane legislation and strict law enforcement, have resorted to this means to alienate the public faith in the progressive movement.

"The country is not in actual danger. The gambling in the stock exchanges and boards of trade has no more to do with legitimate business than the man in the moon, and legitimate business is safe.

"The overshadowing question in the approaching campaign of course will be the tariff. The tariff is going to be revised and revised downward. When we have put it on a strict revenue basis we will be ready to quit and not before.

"T. R. is a Dead One."

"And while I am here in Chicago and talking about things progressive, I should like to inquire about your aviation meet.

"I am implicit in the belief in air traveling for the ordinary tourist some day. I admire the pioneers of the air. And I should also like to speak a word for Darius Green, who had the first recorded tumble from a flying machine. I should like to see a public monument erected to the memory of this mythical aviator.

"Aviation, in a way, reminds me of the progress of the Democratic party. The bird men are producing results and so are the Democrats."

"Do you consider Roosevelt a sort of Darius Green, Jr.?" the speaker was asked.

"Well, they both volplaned involuntarily?" said Mr. Clark, "but Roosevelt is not quite as dead as Green. However, he's a dead presidential possibility, if that's what you mean."

BRYAN ASSAILS TAFT AS MISTRUSTING PEOPLE

In the opinion of W. J. Bryan, President Taft is not a supporter of popular government. Commenting on Taft's veto of the judicial recall, Mr. Bryan says:

"The trouble with President Taft is that he is constitutionally distrustful of the people. He has no fear of the tyranny of a minority—but becomes hysterical at the thought of the majority making a mistake. He is willing to retire to the secrecy of the White House, and without giving the public any information as to recommendations relied upon, appoint judges to nullify acts of congress, but he cannot think of allowing the voters to sit in judgment upon the acts of a judge.

"When he refuses to allow Arizona to frame her constitution to suit herself—subject to the restrictions of the federal constitution—he shows leanings toward a centralized government and when he becomes frightened at the recall he discloses a lack of faith in the capacity of the people for self-government—a lack of faith in their intelligence and patriotism.

"It does not alarm him to have a president force a nomination upon a party by the unscrupulous use of patronage. It does not arouse fears for his country to see the predatory interests coerce voters into supporting their presidential candidate—he can even bring himself to threaten a panic if he is not elected, but his nerves are unstrung at the thought of the people using the recall to rid themselves of a judge who prostitutes his office to the service of some corporate boss."

Sixty-two newspapers have suspended since the publication of the last manual as follows: Democratic, 13; Republican, 20; independent, 21; local, 4; agricultural, 3; educational, 1; total, 62.

Forty-six new papers have been started since the last official manual as follows: Democratic, 8; Republicans, 8; independent, 26; religious, 1; labor, 1; Socialist, 2; total, 46.

Of the new papers, it is to be noticed that the same number of Democratic and Republican papers have been started, while the independent newspapers made a big increase, indicating that the independent field is growing rapidly.

There have been changes in editors on 131 papers during the past two years.

BURLINGTON WILL HAVE COALING STATION

Maryville is to be a coaling station on the Burlington railroad, and will be the only coaling station on this road between Creston and St. Joseph.

Superintendent W. H. Gentle of Creston was in Maryville Thursday to make arrangements for the building which will begin by the middle of the coming week.

All freight trains passing on this road will stop here for coal, and the passenger trains when necessary. The air hoist will be the method used. There are only six coaling stations on the entire Burlington system.

On Trip to Chicago.

Miss Mildred Robinson left Friday evening for a ten days' visit in Chicago with her aunt, Mrs. Fletcher Irwin. Miss Robinson will be accompanied on her trip as far as Brookfield, Mo., by Miss Grace Funk of Chicago, who has been visiting her father, William Funk, and Mrs. Funk, and her old friends in this city for several weeks. Miss Funk will visit in Brookfield with her sister, Mrs. Walter Harris, until the first of next week, when she will go to Chicago to resume her school work in the public schools.

THE SILVER BOWL.

It Was Full of Water, and It Puzzled the Week End Guest.

A rising young politician in New York tells this story on himself. He was invited recently to spend a week end at a country house where things were done a notch or two more elaborately than he was accustomed to, and he stood in not a little awe of the solemn person who was assigned to act as temporary valet to him. The climax came when this functionary tapped at his door on Sunday morning and told him it was 8 o'clock.

"All right, I'll get up," said the visitor, and the solemn man disappeared into the bathroom, from which presently the noise of water running into the bathtub was audible. In half a minute more the solemn person emerged, holding a large silver bowl full of water, with which he approached the bed.

"He must have seen the astonishment in my face," said the New Yorker. "I couldn't conceal it. It was a wholly new game to me, and I didn't know whether I was expected to dip my head in it or to drink it. It was an awful moment, but that man was a diplomat. He realized my embarrassment, and he just let drop in a cold and aloof tone, as if he had outsiders to deal with every day, the simple explanation:

"'The temperature of your bawth, sir.'"—New York Sun.

Mrs. Lulu Baker of Kansas City, who has been visiting Mr. and Mrs. G. A. VanSteenbergh and Mrs. D. C. Wilson, returned to her home Friday morning.

Mr. and Mrs. Pierce Fleming of Graham are the guests of Dr. and Mrs. W. H. Brown.

A GIRL WHO COUNTED.

(St. Louis Times.)

Who are the people who really exert the strongest influence in the world?

Not in the special functions, when the individual of social rank or of great wealth or of other accidental advantages is praised and posed falsely by general agreement—and then sneered at secretly by the envious or pitied by the clear-minded.

But in the everyday affairs of life, where people have only their own characters and equipment to help them and give them standing.

Are not the people who win simply the people who know how to be pleasant and unselfish, even in the trying moments when hard work has to be done?

In St. Louis the other day a girl who worked in a big shoe factory had to give up her work on account of sickness; and within a short time she died.

We hear a good deal about the treadmill, and about listless burden bearers who have lost their interest in life. But over in the Peters shoe factory such conditions do not prevail—that is evident. A whole army of employees knew that the girl whom they had regarded as "the sunshine of the factory" had left them forever. The foreman knew that the girl who had the greatest influence in times of discontentment, and who had straightened out many a little tangle by laughing or by pointing to brighter aspects of the work, had left her place for the last time.

And when the time came to bury this working girl, every wheel in the big factory was silenced, the doors were closed, while the dust was returned to the dust.

A faithful performance of the little duties does count, after all—when the faithful performance is accompanied by that spirit of faith and laughter which should be the normal frame of mind of all people, after all, and which is generally obscured by nothing more considerable than seifish repining and narrow fears.

James Sawyers of Ravenwood, Ora Burch of Hopkins and Phil Growney of Conception were city visitors Friday.

ONE WAY OF SAVING A BABY—FREE TO TRY

The mother does not live who would not do all in her power to keep her child healthy, but often she does not know how. So when a doctor of standing points the way all can afford to listen.

It is an accepted fact that nine out of ten of the troubles of infants and children is intestinal. You notice it by the fact that the child is constipated, it belches, is peevish and cries. Don't give a remedy that contains an opiate, because the child will get in the habit of needing it, and don't become alarmed and run at once for a doctor.

Try a scientific laxative first. Give a small dose of Dr. Caldwell's Syrup Pepsin, the remedy that is intended for the use of children. It is mild, gentle and non-griping. The remedy is absolutely pure and is guaranteed in every particular. Mrs. Toomey of Emingsville, Pa., and Mrs. Fred Croms of Alanson, Mich., never give their children anything else. These are only a few among thousands of women.

You can buy a fifty cent or one dollar bottle of any nearby druggist, for they have all sold it for a generation, but if you want to test it on your child first send your address to Dr. Caldwell and he will cheerfully send you a free sample bottle.

Address him Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.

BALDHEADED MEN.

Ignorance of the Hair Causes Much Baldness Among Men.

Early piety doesn't cause baldness, neither does any kind of piety. Some baldheaded men console themselves with the idea that baldness is caused by a superabundance of gray brain matter, and would have the world believe that a bald head is a sign of great intellect.

Such, however, is not the case. Ninety-nine times in one hundred, baldness is caused by dandruff germs which dig down deep into the roots of the hair, destroy its vitality and cause it to fall out.

All this may come gradually and take time, but as an up-to-date humorist would say, "What's time to a dandruff germ?"

If you have dandruff, the little invisible, persistent devils called dandruff germs are at work. Destroy them at once, or sooner or later they will cause your hair to fall out and you will be compelled to take your place in the baldheaded class.

In France baldheads are few because men understand how to care for the hair. Parisian Sage is a hair grower and invigorator that is guaranteed by the Koch pharmacy to grow hair if the hair root is not already destroyed, to eradicate dandruff, stop itching scalp and falling hair, or money back.

Fifty cents for a large bottle at the Koch pharmacy and druggists everywhere on money back plan.

IT'S ALWAYS BAD.

The Best of Backs Are Bad When They Ache, and Maryville People Know It.

A bad back is always bad.
Bad at night when bedtime comes,
Just as bad in the morning.
Ever try Doan's Kidney Pills for it?
Know they cure backache—cure every kidney ill?
If you don't, some Maryville people do.
Read a case of it:

J. A. Murphy, East Fourth street, Maryville, Mo., says: "I suffered considerably from kidney and bladder trouble. In the morning upon arising my back was weak and stiff and there was a dull ache in my loins which at times handicapped me in doin gmy work. Whenever I caught cold it settled in my kidneys, and at such times the kidney secretions became unnatural. I was run down in health when I read about Doan's Kidney Pills and procured a supply at Charles A. Love's drug store. Soon after beginning their use I found relief, and I am now free from kidney trouble. I occasionally take a few doses of Doan's Kidney Pills, finding that they serve to keep my kidneys in a normal condition."

PRESCRIPTION IS 3,500 YEARS OLD

Egyptian Ostracon Bears a Cure For Hysteria.

PAINTED ON POLISHED STONE.

Calls For Fumigation With Powdered Gems—More Modest Remedies Suffice For the Poor—Found In the Metropolitan Museum of Art.

The oldest medical prescription in America, so far as any one knows, has been found in the Metropolitan Museum of Art, New York. It is at least 3,500 years old and is listed in the museum as "Accession No. 988."

"It is written on a small piece of limestone," says the Journal of the American Medical Association, "about 3½ by 3 inches in its present somewhat injured condition, carefully smoothed for the purpose, forming what is called an 'ostracon.'

"The writing was done with a brush and some sort of black ink or paint, for pens did not come into use in Egypt until the Roman time. The substance employed was well adapted for its purpose, for the writing is still quite plain, except near the edges of the stone, where fragmentation has occurred.

"The inscription is in the old cursive hieratic writing, somewhat similar to that of the old Ebers papyrus, which dates from about 1600 B. C. It is written on both sides of the stone with what Egyptologists would probably call typical Egyptian neglect of such details, from above down on the longer measurement of the stone on one side, but across on the other side, as some ladies of the present day, after having written down one sheet of letter paper, turn it over and write crosswise on the back of it.

"Unfortunately it is not known whence this specimen comes. It was noticed in the museum some years ago by Max Mueller, who recognized its medical character and translated the inscription, though rather unsatisfactorily. An effort was then made to find the place of its origin, but the specimen had come with a number of other antique finds of many kinds gathered from various portions of Egypt, and its exact provenience, to use the archaeologic term, could not be determined.

"The prescription as written seems to be a copy, because portions that in the ordinary medical writings of the time are abbreviated are here written out completely, just as copies of prescriptions written out by druggists today have the abbreviations enlarged.

"The ingredients called for in the prescription are mainly precious stones. These were to be ground up, to be used for fumigation. Professor von Oefele, an authority on ancient Egyptian medicine, suspects the case was one of hysteria, though there is no indication of this on the prescription itself.

"Ground precious stones were favorite remedies for hysterical manifestations. They were used for fumigation whenever the ball in the throat, our globus hystericus, was a prominent symptom.

"Indications on the prescription show that various classes of precious and semiprecious stones were used for patients of differing degrees of wealth. For the very wealthy a valuable stone like sapphire was used. For those of moderate wealth a more modest stone would do. For the poor malachite, which was rather common, sufficed. The remedies which cure the nervous affections of ordinary people seem never to have been capable of producing the same effect on the neurotic symptoms of the wealthy, for whom something quite different and, above all, much more costly is required.

"Further study of the specimen will doubtless bring out more interesting details with regard to the medicine of the time."

CRUSADE FOR THE EYES.

Movement For Better Care of the Vision to Be Promoted.

The American Association of Vision, which was organized following agitation by the American Medical association and the Russell Sage foundation to interest the public in care of the eyes, is planning an active campaign of education in many cities. Branches of the association are to be organized in every part of the country, and a day in October, 1913, will be selected, to be known as "Conservation of Vision day," on which, by exhibits and lectures, an opportunity will be given to every person in the country to obtain free instruction regarding the importance of good vision and the methods of preserving it.

The idea has the indorsement of the American Medical association and the American Association of Workers For the Blind, and efforts are being made to obtain the co-operation of the national, state and local governments, the schools and the churches. It is also expected that many of the 100,000 blind persons in the country will help in the organization of local committees.

TRIMBLE TO HEAR G. A. R.

General McElroy Probably Will Withdraw as Candidate.

Rochester, N. Y., Aug. 25.—It is practically assured that Judge Harvey M. Trimble of Illinois will be elected commander in chief of the Grand Army of the Republic today. It is expected that his opponent, General John McElroy, will withdraw before the vote is taken.

The report of a committee, of which Charles G. Burton of Kansas was chairman, exonerated General McElroy of a charge that he had used certain articles in a book from a copyrighted book that had been issued by the late Lieutenant Colonel William Hinman of Ohio.

WILEY MAN IS ELECTED PRESIDENT

Lucius P. Brown Chosen Head of Pure Food Association.

Duluth, Aug 25.—Lucius P. Brown of Tennessee, a supporter of Dr. H. W. Wiley, was elected president of the National Pure Food association.

A long telegram expressing confidence in Dr. Wiley and promising support of his official acts was sent to President Taft by the Wiley delegates.

A report of the committee revising the constitution was submitted to the convention. The chief changes made by the committee included the disfranchising of the assistants, chemists and others lower down in the employ of the various state departments and the limiting of the right to vote to the executives from all various state departments and the department of agriculture. The subordinates and the assistants are left ex-officio members of the national association, but are deprived of their right to vote or to hold office.

CROWD CHEERS AS VICTIM BURNS

Negroes Give Black Man to Mob to Be Burned at Stake.

LYNCHING AT PURCELL, OKLA.

Sheriff and Deputy Who Attempt to Rescue Assailant of Farmer's Wife From Mob Are Overpowered and Locked in Court House.

Purcell, Okla., Aug. 25.—While 3,000 men and women and children stood by, shouting their approval, Peter Carter, a negro, who had been previously captured by three members of his own race and identified as the man who attacked Mrs. Minnie Spraggins, wife of a farmer, was burned to death in the main street of Purcell. Deputy Sheriff Hayes and Under Sheriff Farris, who attempted to rescue the negro from the crowd, were overpowered and locked in the court house.

Mrs. Spraggins was assaulted while alone in her home, one mile south of Purcell. After the deed, the negro set fire to the Spraggins home. Mrs. Spraggins' husband saw the flames while working in the fields and rushed into the house in time to rescue his wife. She declared Carter, who formerly worked on the Spraggins farm, had attacked her. Officers went to Carter's home and arrested him. He was turned over to a tonstable, but on the way to jail Carter escaped. When it became known the negro was free, farmers of the neighborhood organized and an all-night search was made. The negro was not found.

Highley Henry, a negro janitor, noticed a negro hiding under a boxcar near the railroad station. With the aid of two other negroes, who armed themselves to aid in the search for Mrs. Spraggins' assailant, the negro janitor pulled Carter from beneath the car. He was taken to the main street of Purcell, where a great crowd had gathered.

"Turn that negro over to me," said a tall farmer, who suddenly seemed to assume command of the crowd.

The janitor and his aides obeyed. Carter was taken across the street and in an instant many men and boys were gathering brush and placing it at his feet. At this juncture Deputy Sheriff Hayes and Under Sheriff Farris arrived.

Officers Locked Up.

The sheriff pleaded with the mob, declaring the negro would be given an instant trial; that there would be no chance for him to escape. After the sheriff had concluded the officers were led to the court house, presumably to confer with some of the leaders. As they entered a room in the building the key was turned in the lock and the officers were held prisoners until the negro was dead.

As soon as the sheriff and his assistant had been locked up, the negro was led out and placed on an oil-soaked brush heap, built around a telephone pole. He was tied to the pole and the torch applied. Cheers came from the crowd as the flames licked the victim's face, and men and women in motor cars watched him die. As he was lashed to the pole, the negro shrieked for mercy. After the flames died down the crowd slowly dispersed. The negro's body was burned to a crisp.

BEATTIE ON TRIAL FOR LIFE

Spends Wedding Anniversary in Court Room at Chesterfield.

Chesterfield, Va., Aug. 25.—On the anniversary of his marriage to the woman he is accused of murdering, Henry Clay Beattie, Jr., sat in the stuffy court room and heard seven witnesses called by the commonwealth give testimony on which the prosecution expects to send him to the electric chair.

On the court house lawn, a few feet away, stood the blood-soaked automobile in which the young wife met her death. Beattie calmly inspected the car when it arrived and not once during the proceedings did he show any signs of blanching. Twice during the cross-examination of two detectives he flushed with amazement and appeared to struggle to hold back his laughter.

Ship Lost in Storm; Ten Perish.

Midland, Ont., Aug. 25.—The steamer C. C. Martin, with a crew of ten, probably was lost in the storm on Georgian bay. The barge Albatross, in tow of the Martin, sank during the storm, but its crew reached the lighthouse at the mouth of the French river in a boat. Nothing has been heard from the Martin.

Dear Amy:-

Laura and her husband stayed with us last night. How she praised the furniture in our spare room! You feel like having your friends come to visit you if your home is beautifully furnished throughout, don't you?

When you go to buy furniture, you should not only know that the style is right, but that it is strongly made; and you should go to an honest store where you will know that the price is right.

Always your friend,

SIX MEN DIE IN ELY SHAFT

Explosion Following Fire Catches Them Far Below Surface.

OTHERS SERIOUSLY INJURED.

Accident in the Girioux Consolidated Mines That Costs Heavily in Life and Property—Second Disaster of the Kind—Shaft Still Burning.

Ely, Nev., Aug. 25.—Of ten men who were working at the 1,400-foot level of the new five compartment shaft of the Girioux Consolidated mines when it caught fire, six are dead and four lie at the point of death after passing through flames to reach the surface. face.

The dead: T. J. Gilmore, shaft boss; John Wilhelmy, Thomas Odolovich, Edward Walsh, John McNulty, Daniel Drea.

Seriously injured: Clarence Gates, Michael Foley, Edward Knox, Peter Harrington.

The men on the 1,400-foot level heard a noise which they thought was caused by an explosion. They looked upward and saw the shaft in flames.

They at once boarded the cage and started for the surface, but encountered the flames at the 1,200-foot level, and stopped.

Wilhelmy and four other men left the cage and started to walk through the 1,200-foot level to the old Alpha shaft, 700 feet away, through which they hoped to climb out of the mine. The five men remaining in the cage gave the signal to hoist and were pulled through the blazing shaft. One was dead when the top was reached and the other four were taken to a hospital.

The work of rescuing the five men remaining in the mine was then attempted through the Alpha shaft. At the 400-foot level Wilhelmy was found dead; Gilmore's body was recovered at the 600-foot level, face downward, at the bulkhead; Odolovich lay dead. Walsh and McNulty were not found and still are in the burning mine.

This is the same mine in which three and a half years ago two men were killed and four others entombed for forty-six days on the 1,000-foot level of the Alpha shaft. The new shaft is one of the largest and deepest in the district and cost $250,000.000.

Every effort is being made to extinguish the flames, which are still burning.

BAD EGGS IN STORAGE

Rumor Thousands of Cases Were Shipped From Kansas City to Chicago.

Chicago, Aug. 25.—Commissioner of Health Young began an investigation of a charge that large quantities of bad eggs are being put in cold storage here for use later, when the supply of fresh eggs is inadequate to meet the demand.

It is reported here that a large quantity of bad eggs, which had been in cold storage for a long time, had recently been shipped to Kansas City, where they were purchased by dealers at from 75 cents to $1 a case. It is said these eggs were unfit for food when they reached Kansas City.

Dr Benjamin Perry, chief food inspector of the Chicago health department, said he had received information that a firm in Kansas City made a specialty of buying No. 3 eggs at $1 a case for shipment to the Chicago market and that thousands of eggs unfit for food were now being held in cold storage plants.

GREAT RAILROAD STRIKE POSSIBLE

Heads of Five International Unions to Meet Monday.

MAY INVOLVE HARRIMAN LINES

Railroads Asked to Deal With Big Labor Organizations as Unit—President of Blacksmiths' Union Confers With Kruttschnitt.

Kansas City, Aug. 25.—A conference between the international presidents of five great labor organizations to consider the question of a railroad strike which may involve railroad employees throughout the Harriman system, is to be held in this city next Monday, according to M. F. Ryan, international president of the Brotherhood of Railway Carmen, whose office is here.

"It looks like a big strike, unless the management of the Harriman system consents to confer with union leaders," said Mr. Ryan. Several months ago five big labor organizations decided to cease dealing with railroads separately and banded together. They asked the railroads to treat with them as a unit. Many roads consented, but the Harriman lines refused."

Kruttschnitt Leaves for West.

Chicago, Aug. 25.—A long conference between Vice President Julius Kruttschnitt of the Union and Southern Pacific railroads and J. W. Kline, international president of the blacksmiths' union, was held here without any steps being taken toward a settlement of differences involving 25,000 shopmen employed by the Harriman lines. Both declined to discuss what was done at the conference, but it is said the subject of the railroads' refusal to recognize the federated labor organizations instead of the individual unions was considered at length.

It is said Vice President Kruttschnitt followed instructions of the directors in refusing to yield to the demands of the shopmen.

Shortly after the meeting Mr. Kruttschnitt left for the west, where he will spend two weeks investigating the labor situation. He will visit Omaha, Ogden and San Francisco and other cities, and may confer with labor representatives at San Francisco next Wednesday.

TRIPLE MURDER IN INDIANA

Mr. and Mrs. Richard Lee and Son, Clarence, of Boonville Killed.

Boonville, Ind., Aug. 25.—Richard Lee, Mrs. Lee and their son, Clarence, were killed in their beds with a hammer and their house set on fire.

William Lee, an elder son, was arrested, charged with the murder.

The house was found burning and when the firemen reached it they discovered that all the doors and windows were locked. Breaking down the doors, the firemen found the incinerated bodies of Lee, his wife and younger boy.

Examination of the bodies resulted in the discovery that the skulls of the father and mother had been crushed in with a hammer while they were lying in bed. The seventeen-year-old boy, it was found, had been shot.

William Lee claimed at the time of his arrest that he was awakened by the flames and barely escaped with his life, not having had time to rescue his parents and brother.

It was said that Lee and his father had quarreled frequently over money matters. William, the son who is now in the Warrick county jail, was engaged to wed Miss Mina Taylor of Newburg, daughter of a wealthy farmer.

Insurance policies amounting to $5,000 were found on the lives of Richard Lee, the father, and his son, Clarence, both victims of the tragedy.

Man Who Refused to Join Army Dead.

Atchison, Kan., Aug. 25.—William P. Simmons, a pioneer of Doniphan, who in civil war days was imprisoned because he refused to join the federal army, died here, aged eighty-three. Mr. Simmons several times was driven out of Kansas because of his avowed southern sympathies. Once a rope was cut to hang him. He escaped, fled to St. Joseph and there was committed to prison for refusal to join the Union army. Later he served two years in the Confederate army, returning to Kansas after the war, penniless and friendless. He owned 1,500 acres of land at the time of his death.

$1,500 Prize for Peck of Wheat.

St. Paul, Aug. 25.—A $1,500 silver trophy is the prize for the best peck of wheat exhibited at the Minnesota state fair next month. The winner will be allowed to keep the prize trophy in his possession until the next state fair, and if a farmer wins it three times within five successive years, his name will be engraved on it and it becomes his personal property.

Atwood in Aeroplane Trap.

Nyack, N. Y., Aug. 25.—Unless favorable winds come to his rescue, Harry N. Atwood may not be able to complete his record-breaking aeroplane flight from St. Louis to New York without dismantling his machine and carting it out of a veritable aeroplane trap, into which he unwittingly plunged when making a landing here.

ANNOUNCEMENT

I am now taking orders and delivering winter coals. The prices range from 50 cents a ton up to $10.50 per ton.

Twenty-three years experience in the business of buying and selling coal leads me to think I can come nearer giving you value received for your money than others engaged in the business as a side line. As I give my entire time to the business I should give you better results, cleaner coal and better service. As I sell for cash I should give you more for your money. As I do not hire solicitors to take orders at so much per ton—which you, of course, have to pay—I should sell cheaper. In fact there are so many reasons why you should at least talk to me before placing your order for coal this fall I can not enumerate them here. If you want coal of any description or kind at any price as above, I am anxious to serve you at the right price. Yours truly,

F. G. SHOEMAKER.

DANDRUFF, FALLING HAIR STOPPED

Harmless, Old-Fashioned Remedy Brings Back Color to Gray Hair and Makes It Grow.

How many old-fashioned remedies are being used, which goes to show that it is hard to improve some of our grandmothers' old-time, tried remedies. For instance, for keeping the hair dark, soft and glossy nothing equals our grandmothers' "sage tea." Although, by the addition of sulphur and other ingredients, this old-fashioned brew has been made more effective as a scalp tonic and color restorer.

Nowadays, when our hair comes out or gets faded or gray, instead of going to the garden or garret for herbs and making the "tea" ourselves, we simply go to the nearest drug store and ask for a bottle of Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.

DAILY DEMOCRAT FORUM

(Successor to the Maryville Republican)

VOLUME 2. MARYVILLE, MISSOURI, FRIDAY, AUG. 25, 1911. NO. 71.

THE BONDS CARRIED

ELECTION THURSDAY GAVE MAJORITY IN FAVOR OF ISSUE.

HEAVY VOTE WAS POLLED

All Four Wards Gave Majority and the Bonds Received Vote of Almost 4 to 1.

The bond issue of $100,000 to either buy or erect a water plant in Maryville received 674 votes for to 195 against Thursday in the special election. It required a two-thirds majority to carry the proposition, hence 390 was sufficient, and the proposition then has carried by 284 votes more than the necessary majority. The proposition thus got through with better than 3½ to 1.

With such a vote as 674 to 195 in favor of the bonds, it is evident that the citizens of Maryville were nearly unanimous in favor of the bonds and of the city controlling the water plant.

The vote the proposition received Thursday was a big surprise to many. It was not thought the bonds would carry by such a big vote. The total vote cast was 869, just a little less than is cast at the regular elections.

Since the bonds carried the city is in a position to solve the water question, which has been confronting us for several years. What action will be taken is not known at this time.

The bonds received their biggest vote in the fourth ward, where the issue received 294 votes for to 56 against. With the Fourth ward left out, the bonds carried in the other three wards by 102 over the two-thirds majority.

Quite an interest in the election was taken. Maryville never had such a friendly campaign as was had in the water campaign.

The vote by wards follows:

	Yes.	No.
First	134	36
Second	122	27
Third	124	76
Fourth	294	56
Total	674	195

Majority, 284 over two-thirds majority.

Total vote cast, 869.

MR. STREET COMING TO CONSULT MAYOR

E. L. Street, general manager of the City Water company, sent a telegram to the local manager, G. B. Roseberry, Wednesday as follows:

"We will reach Maryville Saturday morning. Arrange meeting with Mayor."

It is not known by Mr. Roseberry or the city authorities what is the object of Mr. Street's visit at this time, but no doubt it has something to do with the solution of the water question. It is thought that Mr. Street has a proposition to make to the city either of selling the plant or of a franchise. But since the City Water company has repeatedly stated that the company would rather sell out to the city than to have a franchise, it is thought that Stret will make some sort of proposition to sell the plant.

Attended the Maitland Fair.

Mr. and Mrs. E. A. Wright of North Fillmore street and Mr. and Mrs. Jordon Pease formed an automobile party to the Maitland fair Thursday. Mr. and Mrs. Wright went to Maitland Thursday evening to see Roy Zancker, who was injured in a fight at the Maitland fair Wednesday afternoon. Mrs. Zancker is a cousin of Mr. Wright. They found the injured man in a very serious condition and his recovery is regarded doubtful. Mr. Zancker is a brother of George Zancker, who formerly lived in Maryville, and they are nephews of Emanuel Zancker of Graham. Mr. Zancker has a wife and two children. His youngest child was burned to death last summer in Graham while playing with matches with a neighbor child. He has been in the employ of A. C. Snyder mercantile store.

ST. MARY'S SCHOOL

CONTRACT LET TO GEO. WALKER FOR NEW EDIFICE.

WORK TO START AT ONCE

New Building to Be Two Stories High, of Vitrified Brick, With White Trimming.

George W. Walker of this city was awarded the contract, on Thursday, for the building of a new building for St. Mary's Catholic school of this city. The entire contract of the building, excepting plumbing and heating, was given to Mr. Walker by the board of trustees of the church, who are the building committee.

The new school building will be located on the southwest corner of St. Mary's church property, directly south of the church building. Its size will be 40x50 feet, with two stories above the basement, and it will be a modern up-to-date school building in every respect.

Excavations will begin Saturday morning and the work will be pushed as rapidly as possible.

The building above the basement will be of vitrified brick, while black steel brick will be used in building the basement. White stone will be used for the trimmings.

It is the purpose of St. Mary's congregation to make the new school building the equal of any in the city in finish and equipment. The plumbing, heating and lighting contract will be let later.

St. Mary's school will open the first Monday in September in the old location, the basement of the church building, by two teachers from Atchison, Kan., and several others will be added later in the new building.

St. Mary's congregation and its pastor, Rev. Father Anselm, have several plans for the good of the school and students that are not yet matured or ready for publication.

St. Mary's new school will be a decided improvement to our city.

HER FATHER WAS A WABASH STATION AGENT

Miss Elizabeth Patterson of St. Louis and her aunt, Mrs. J. J. Sheridan of St. Joseph spent Friday afternoon in Maryville calling on Miss Patterson's old friends here. Mrs. V. W. Keene, Mrs. N. B. Lamar, Mrs. G. W. Turner, Miss Katharine Turner and Miss Elizabeth Turner.

Miss Patterson is a niece of the late Mrs. George Vinsonhaler of this city. Her father, L. W. Patterson, was the first Wabash station agent in Maryville and lived here with his family. He was succeeded by Mr. W. C. Pierce of this city, when he removed to St. Louis and was employed in the general offices of the Wabash until his death a number of years ago.

Miss Patterson is one of the leading teachers in kindergarten work in St. Louis.

CO. F IN BATTLE

SERVED IN ADVANCE GUARD IN MANEUVERS AT NEVADA.

PRIVATE GRAY WOUNDED

Lieutenant Sisson Fell in River While Captain Cook Was Blown Six Feet in the Air.

Special to The Democrat-Forum.

Nevada, Mo., Aug. 23.—Early this morning orders were given to prepare for battle as quickly as possible. Company F was thrown into an advance guard with Sergeant Rush in command of the point, and Sergeants Bennett and Gray companding the flanks.

Colonel McDonald, in command of the first battalion, with Lieutenant Sisson as adjutant, gave the advance guard orders to watch for the enemy, the second battalion, who would be distinguished by a band of red on their hats. At 9:30 a. m., after a long search through fields and woods by Company F, the advance guards of the two armies met, and the skirmish was on. The entire defensive force under Captain Harper of Company K were soon engaged with the enemy, when a sudden flank movement by Company F started a rout among the attacking forces. All forces were then brought to bear with full strength on the front, and a battle royal lasted until 11:30 a. m., when maneuvers were brought to a halt for dinner. Company F did full justice to a menu of chicken, gravy, beef and coffee.

In the afternoon the first battalion was put on the offensive and the second battalion the defensive. Company F, under the command of Lieutenant Phipps, was ordered to ambuscade the enemy, with instructions to fire only when the main body was sighted. The guards were successfully passed and a terrific fire was poured on the enemy a few moments later.

A retreat was ordered and carried out successfully with a loss of only two men. Sergeant Gray and Private DeMotte were captured, but by a clever ruse and sheer bravery made their escape later. Gray receiving a slight bayonet wound in the side in his efforts for freedom. A second stand was made by Company F, but they had to fall back upon the main body, and throughout the rest of the engagement did valiant service.

Camp Notes.

During the day's engagement Lieutenant Sisson fell into the river while leading a retreat, but quickly climbed out and escaped capture.

Parade takes place every evening after supper, and it is a most imposing and impressive sight.

Last night the train from town was late and a number of the boys, among them some from Company F, had to run the guard lines before they could get into camp. No one was caught in the attempt.

Cooks Ryan and Snipes are some chefs and give Company F plenty of well cooked food.

Upon arrival in camp the first day about everyone in Company F were on duty continuously for twentyfive hours.

The first two night in camp five and a half inches of rain fell. A heavy wind accompanied it and blew down two of Company F's tents. Captain Cook was blown six feet in the air and let fall into six inches of water.

Captain Cook left for Maryville Tuesday evening, and on a farewell treat supplied the boys with a chicken dinner.

Benny Myers and Corporal Strader got lost in the battle and did not get back to camp until after the chicken dinner.

"THE BOYS."

Coming to Visit Uncle.

Misses Ethel and Madonna Cox of Breckinridge, Mo., and Miss Katie Lee Allen of Nevada, Mo., will arrive in Maryville Friday evening and will be guests for a few days of their uncle R. C. Seal, and wife, of 104 North Vine street.

News of Society and Womens' Clubs

Informal Sewing Party.

Mrs. Harry Irwin entertained informally Thursday afternoon with a small sewing party for Miss Maud McMillen, who leaves soon for Duluth, Minn., where she is a member of the public school faculty of that city. The hostess and her guests were former school girl friends and neighbors. The afternoon was spent socially, while each employed herself at sewing or embroidery. A chafing dish luncheon was served by the hostess. Those present were Miss McMillen, Mrs. Arch Frank and little daughter, Eva Margaret; Mrs. N. C. Covey and her guest, Mrs. Truman Worst of Lincoln, Neb.

Gave Slumber Party.

Miss Amy Clark, daughter of Mr. and Mrs. A. T. Clark of the Ream hotel gave a slumber party Thursday night to celebrate her fourteenth birthday anniversary. Refreshments and other capers took place at midnight. The guests were of the "Jolly Six" club, of which the hostess is a member, and include Miss Vella Booth, Miss Mary Lewis, Miss Olivette Godsey and Miss Grace Parle. The club lost one of its members recently in Miss Inez Riggs, who went with her parents, Mr. and Mrs. C. W. Riggs, to Roscoe, Pa., to make their home.

Picnic at McJimsey's Park.

A picnic supper was given at McJimsey's park Thursday evening in compliment to Adelbert McMillen of Pickering, who will soon go to the university, and Mr. Errett Ingles of Des Moines, who is visiting friends in this city. The guests were: Mr. McMillen, Mr. Ingles, Miss Ora McMillen of Pickering, Miss Audrey McMillen, Miss Inez Balnum, Miss Phyllis Sayler, and Mr. and Mrs. Roy Wolfers and Fred Wolfers of Pickering, who came down in their car.

South Side Embroidery Club.

The South Side Embroidery club met Wednesday afternoon with Mrs. Herman W. Hull at her home, north of Maryville. The question that was to have been debated in regular forum style, "Resolved, that a careless, amiable wife is more to be desired than a painstaking, irritable one," was the subject of a general discussion, owing to the enforced absence of two of the four debaters chosen. A paper was read in favor of the careless, amiable wife that was prepared by Mrs. Edward Egley, and Mrs. W. T. Ramsey spoke for the irritable, painstaking wife. The general discussion followed and it was the general opinion of those present that the extreme in either case was sufficient cause for a divorce. Refreshments were served during the general discussion by the hostess, assisted by her daughter, Miss Myra Hull. The next meeting will be at the home of Mrs. W. O. Garrett, with Mrs. Garrett and Mrs. T. A. Wiles as hostesses. Subject for discussion, "Co-operation of parents and teachers on school grounds." The members present at Wednesday's meeting were Mrs. J. P. Frazee, Mrs. J. C. Farrar and Miss Eva Farrar, Mrs. M. A. Nicholas, Mrs. W. T. Ramsey and Mrs. M. D. Kemp. The visitors were Mrs. George Richardson, Miss Wilma Nicholas and Mrs. E. J. Carter.

For Mrs. Baldridge.

Mrs. Margaret Baldridge of Milan, Mo., who is visiting her sister, Mrs. W. H. Totterdale, was the guest of honor at a small dinner party Thursday, given by Mr. and Mrs. S. H. Townsend, with the assistance of their granddaughter, Miss Lora Stockton. The company included Mrs. Baldridge, Mrs. Totterdale, Mrs. S. J. Richardson, Mrs. Isabel Worst and Mr. and Mrs. Jonathan Sprague.

Entertained Four Sisters.

Dr. and Mrs. Jesse Miller entertained at dinner Friday the four sisters of Mrs. Miller, who include Mrs. Wilson Wray of Pickering, Mrs. Will Partridge of Maryville, Mrs. Lillie Owen and Mrs. Ethel O'Dare of Independence, Kan., who have been visiting here several days. Mrs. O'Dare and Mrs. Owen left for their home Friday evening.

Entertained at Dinner.

Mr. and Mrs. John M. Murrin entertained at 6 o'clock dinner Thursday evening Mrs. M. A. O'Hara of Indianapolis, Ind.; Mrs. Mary Haffey of Kansas City, and Miss Hazel Cunningham of Lamar, Col.

Entertained at Dinner.

Mrs. C. H. John and son, W. E. John, entertained at dinner on Thursday Miss Margaret Evans of Clay Center, Kan., Mrs. E. T. Rasmussen of Riverton, Neb., and Mr. and Mrs. H. T. Crane of this city.

MEETING OF CHAUTAUQUA COMMITTEE

A meeting of the soliciting committee for a permanent Chautauqua met Thursday afternoon, and after discussing the matter decided to see if more signers could be secured to take stock in the Chautauqua. Up to date only 150 have signified their intention of taking a share of stock in a permanent Chautauqua organization, each share to be $10.

Another meeting of the committee will be held September 1, and at this time a meeting of the stockholders will be called, so as to organize and go ahead with incorporating a permanent Chautauqua company for Maryville. It is thought that at least 200 ought to take stock in the company, and the soliciting committee intends to have that number by the first of the month. Those on the soliciting committee are S. H. Kemp, W. M. Oakerson, G. B. Holmes, Thomas Wadley, Rev. C. J. Miller, Henry Thorp and Lewis White.

New Son at Fort Worth.

Mr. and Mrs. Phillip Burton O'Connell of Fort Worth, Texas, are the happy parents of a son, who arrived this week. Mrs. O'Connell is the daughter of Mr. and Mrs. Michael M. Callahan of near Arkoe, and was Miss Catharine Callahan.

Took Guest Home.

Mr. and Mrs. J. B. Robinson and their sons accompanied Mrs. Robinson's niece, Miss Lela Chilton, to her home in St. Joseph Friday morning in the Robinson car. Miss Chilton has been a guest in the Robinson home for several weeks.

Will Attend Funeral.

Dr. Grace Phelps went to Gallatin Friday, where she will attend the funeral on Saturday of her 4-year-old nephew, Robert Cravens.

Prof. R. E. McGann arrived in Maryville Friday morning from his home in Xenia, O.

MONEY AND THE BANKS.

The public does not realize the importance of safeguarding the general welfare in any legislation that may be proposed by Nelson Aldrich's currency commission. The money problem is complex. Every human being in America is interested in it.

In 1899 the stock of gold in this country was about $700,000,000. In 1905 it was nearly $1,400,000,000. During the same period population increased only 20 per cent.

In 1899 national and state banks made loans of $5,000,000,000. In 1909 their loans were $10,000,000,000.

In 1899 the issue of national bank notes was $237,000,000. In 1909 it had increased to $685,000,000. This huge bank note issue is secured by a gold redemption fund of 5 per cent or $34,250,000.

Ex-Senator Aldrich, as chairman of the monetary commission, may be counted upon to urge a currency system along the lines of his tariff bill—to benefit big business.

Congressmen should examine all currency bills with a microscope. They have ample time between now and the next regular session for such useful work.

If the country lacks confidence in Aldrich and regards him as a cold-blooded huckster in legislation for his own benefit and for the advantage of his New England mill boss friends, he has nobody to blame but himself.

Mr. Aldrich was never known to propose any measure for the benefit of the people.—Chicago Journal.

Colonel Roosevelt says: "I should regard my nomination for the presidency a genuine calamity." That makes it unanimous.

Senator Owen of Oklahoma says Champ Clark is the man for the Democrats to nominate for president.

President Taft is violently opposed to the recall. Maybe he is thinking of 1912.

SEES VICTORY FOR DEMOCRATS IN 1912

Champ Clark, speaker of the house, declared in Chicago yesterday that by election day, 1912, there will be two Democratic votes in the United States to one Republican vote. He foretold the approach of a great national prosperity that will triumph over the efforts of the "interests" and the political reactionaries to conjure a financial bogey man to discredit the constructive activities of the Democrats.

The popular election of United States senators and the purging of congress and a general downward revision of the tariff was a part of the speaker's prediction of national reform. Mr. Clark also discussed aviation and the spectacular volplane recently made in the popular affection for Mr. Roosevelt.

"The Democrats will carry the next election by a majority of 2 to 1," he said. "I am not guessing. The tremendous growth of Democratic sentiment is too insistent to be misunderstood or easily overestimated.

To Win on Record.

"The reasons for the inevitable Democratic victory of 1912 are well known. The great record made by the Democrats in congress—especially in the house—has won the party hundreds of thousands of staunch supporters. The record of the Sixty-first congress did the work.

"By reason of that record we elected a Democratic house and replaced seven Republican senators and six Republican governors with Democrats. Every one of these senators and governors owes his seat to the work exhibited by the Sixty-first congress.

"And by the voters of the country the record established by the recent session will be considered first of all.

"At present a slight spasm of unrest is passing through the country as a result of the downward trend of stocks. But I don't believe the people can be fooled into believing that a national depression is impending.

Can't Hurt Conditions.

"The manipulators of the stock market are trying to frighten congress and terrorize the people, forcing a seeming condition of stagnation. The 'interests,' made desperate by the prospects of sane legislation and strict law enforcement, have resorted to this means to alienate the public faith in the progressive movement.

"The country is not in actual danger. The gambling in the stock exchanges and boards of trade has no more to do with legitimate business than the man in the moon, and legitimate business is safe.

"The overshadowing question in the approaching campaign of course will be the tariff. The tariff is going to be revised and revised downward. When we have put it on a strict revenue basis we will be ready to quit and not before.

"T. R. is a Dead One."

"And while I am here in Chicago and talking about things progressive, I should like to inquire about your aviation meet.

"I am implicit in the belief in air traveling for the ordinary tourist some day. I admire the pioneers of the air. And I should also like to speak a word for Darius Green, who had the first recorded tumble from a flying machine. I should like to see a public monument erected to the memory of this mythical aviator.

"Aviation, in a way, reminds me of the progress of the Democratic party. The bird men are producing results and so are the Democrats."

"Do you consider Roosevelt a sort of Darius Green, Jr.?" the speaker was asked.

"Well, they both volplaned involuntarily?" said Mr. Clark, "but Roosevelt is not quite as dead as Green. However, he's a dead presidential possibility, if that's what you mean."

BRYAN ASSAILS TAFT AS MISTRUSTING PEOPLE

In the opinion of W. J. Bryan, President Taft is not a supporter of popular government. Commenting on Taft's veto of the judicial recall, Mr. Bryan says:

"The trouble with President Taft is that he is constitutionally distrustful of the people. He has no fear of the tyranny of a minority—but becomes hysterical at the thought of the majority making a mistake. He is willing to retire to the secrecy of the White House, and without giving the public any information as to recommendations relied upon, appoint judges to nullify acts of congress, but he cannot think of allowing the voters to sit in judgment upon the acts of a judge.

"When he refuses to allow Arizona to frame her constitution to suit herself—subject to the restrictions of the federal constitution—he shows leanings toward a centralized government and when he becomes frightened at the recall he discloses a lack of faith in the capacity of the people for self-government—a lack of faith in their intelligence and patriotism.

"It does not alarm him to have a president force a nomination upon a party by the unscrupulous use of patronage. It does not arouse fears for his country to see the predatory interests coerce voters into supporting their presidential candidate—he can even bring himself to threaten a panic if he is not elected, but his nerves are unstrung at the thought of the people using the recall to rid themselves of a judge who prostitutes his office to the service of some corporate boss."

Attending Bethany Chautauqua.

MISSOURI NOW HAS 923 NEWSPAPERS

Secretary of State Roach has completed the compilation of the newspapers and other publications of the state for the Blue Book for 1910-11. This shows that there are 923 newspapers in this state. They are classified as follows:

Country weeklies, 634; dailies, outside St. Louis and Kansas City, 63; monthlies, outside those cities, 23; semi-monthlies, 11; tri-weeklies, 2; total, outside St. Louis and Kansas City, 733.

In Kansas City—Weeklies, 23; dailies, 6; monthlies, 24; semi-monthlies, 2; total for Kansas City, 55.

In St. Louis—Weeklies, 42; dailies, 13; monthlies, 65; semi-weeklies, 10; quarterlies, 5; total, 135.

Sixty-two newspapers have suspended since the publication of the last manual as follows: Democratic, 13; Republican, 20; independent, 21; local, 4; agricultural, 3; educational, 1; total, 62.

Forty-six new papers have been started since the last official manual as follows: Democratic, 8; Republicans, 8; independent, 26; religious, 1; labor, 1; Socialist, 2; total, 46.

Of the new papers, it is to be noticed that the same number of Democratic and Republican papers have been started, while the independent newspapers made a big increase, indicating that the independent field is growing rapidly.

There have been changes in editors on 131 papers during the past two years.

BURLINGTON WILL HAVE COALING STATION

Maryville is to be a coaling station on the Burlington railroad, and will be the only coaling station on this road between Creston and St. Joseph.

Superintendent W. H. Gentle of Creston was in Maryville Thursday to make arrangements for the building which will begin by the middle of the coming week.

All freight trains passing on this road will stop here for coal, and the passenger trains when necessary. The air hoist will be the method used. There are only six coaling stations on the entire Burlington system.

On Trip to Chicago.

Miss Mildred Robinson left Friday evening for a ten days' visit in Chicago with her aunt, Mrs. Fletcher Irwin. Miss Robinson will be accompanied on her trip as far as Brookfield, Mo., by Miss Grace Funk of Chicago, who has been visiting her father, William Funk, and Mrs. Funk, and her old friends in this city for several weeks. Miss Funk will visit in Brookfield with her sister, Mrs. Walter Harris, until the first of next week, when she will go to Chicago to resume her school work in the public schools.

THE SILVER BOWL.

It Was Full of Water, and It Puzzled the Week End Guest.

A rising young politician in New York tells this story on himself. He was invited recently to spend a week end at a country house where things were done a notch or two more elaborately than he was accustomed to, and he stood in not a little awe of the solemn person who was assigned to act as temporary valet to him. The climax came when this functionary tapped at his door on Sunday morning and told him it was 8 o'clock.

"All right, I'll get up," said the visitor, and the solemn man disappeared into the bathroom, from which presently the noise of water running into the bathtub was audible. In half a minute more the solemn person emerged, holding a large silver bowl full of water, with which he approached the bed.

"He must have seen the astonishment in my face," said the New Yorker. "I couldn't conceal it. It was a wholly new game to me, and I didn't know whether I was expected to dip my head in it or to drink it. It was an awful moment, but that man was a diplomat. He realized my embarrassment, and he just let drop in a cold and aloof tone, as if he had outsiders to deal with every day, the simple explanation:

"'The temperature of your bawth, sir.'"—New York Sun.

Mrs. Lulu Baker of Kansas City, who has been visiting Mr. and Mrs. G. A. VanSteenbergh and Mrs. D. C. Wilson, returned to her home Friday morning.

Mr. and Mrs. Pierce Fleming of Graham are the guests of Dr. and Mrs. W. H. Brown.

A GIRL WHO COUNTED.

(St. Louis Times.)

Who are the people who really exert the strongest influence in the world?

Not in the special functions, when the individual of social rank or of great wealth or of other accidental advantages is praised and posed falsely by general agreement—and then sneered at secretly by the envious or pitied by the clear-minded.

But in the everyday affairs of life, where people have only their own characters and equipment to help them and give them standing.

Are not the people who win simply the people who know how to be pleasant and unselfish, even in the trying moments when hard work has to be done?

In St. Louis the other day a girl who worked in a big shoe factory had to give up her work on account of sickness; and within a short time she died.

We hear a good deal about the treadmill, and about listless burden bearers who have lost their interest in life. But over in the Peters shoe factory such conditions do not prevail—that is evident. A whole army of employees knew that the girl whom they had regarded as "the sunshine of the factory" had left them forever. The foreman knew that the girl who had the greatest influence in times of discontentment, and who had straightened out many a little tangle by laughing or by pointing to brighter aspects of the work, had left her place for the last time.

And when the time came to bury this working girl, every wheel in the big factory was silenced, the doors were closed, while the dust was returned to the dust.

A faithful performance of the little duties does count, after all—when the faithful performance is accompanied by that spirit of faith and laughter which should be the normal frame of mind of all people, after all, and which is generally obscured by nothing more considerable than selfish repining and narrow fears.

James Sawyers of Ravenwood, Ora Burch of Hopkins and Phil Growney of Conception were city visitors Friday.

ONE WAY OF SAVING A BABY—FREE TO TRY

The mother does not live who would not do all in her power to keep her child healthy, but often she does not know how. So when a doctor of standing points the way all can afford to listen.

It is an accepted fact that nine out of ten of the troubles of infants and children is intestinal. You notice it by the fact that the child is constipated, it belches, is peevish and cries. Don't give a remedy that contains an opiate, because the child will get in the habit of needing it, and don't become alarmed and run at once for a doctor.

Try a scientific laxative first. Give a small dose of Dr. Caldwell's Syrup Pepsin, the remedy that is intended for the use of children. It is mild, gentle and non-griping. The remedy is absolutely pure and is guaranteed in every particular. Mrs. Toomey of Emingsville, Pa., and Mrs. Fred Croms of Alanson, Mich., never give their children anything else. These are only a few among thousands of women.

You can buy a fifty cent or one dollar bottle of any nearby druggist, for they have all sold it for a generation, but if you want to test it on your child first send your address to Dr. Caldwell and he will cheerfully send you a free sample bottle.

Address him Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.

BALDHEADED MEN.

Ignorance of the Hair Causes Much Baldness Among Men.

Early piety doesn't cause baldness, neither does any kind of piety. Some baldheaded men console themselves with the idea that baldness is caused by a superabundance of gray brain matter, and would have the world believe that a bald head is a sign of great intellect.

Such, however, is not the case. Ninety-nine times in one hundred, baldness is caused by dandruff germs which dig down deep into the roots of the hair, destroy its vitality and cause it to fall out.

All this may come gradually and take time, but as an up-to-date humorist would say, "What's time to a dandruff germ?"

If you have dandruff, the little invisible, persistent devils called dandruff germs are at work. Destroy them at once, or sooner or later they will cause your hair to fall out and you will be compelled to take your place in the baldheaded class.

In France baldheads are few because men understand how to care for the hair. Parisian Sage is a hair grower and invigorator that is guaranteed by the Koch pharmacy to grow hair if the hair root is not already destroyed, to eradicate dandruff, stop itching scalp and falling hair, or money back.

Fifty cents for a large bottle at the Koch pharmacy and druggists everywhere on money back plan.

IT'S ALWAYS BAD.

The Best of Backs Are Bad When They Ache, and Maryville People Know It.

A bad back is always bad.
Bad at night when bedtime comes,
Just as bad in the morning.
Ever try Doan's Kidney Pills for it?
Know they cure backache—cure every kidney ill?
If you don't, some Maryville people do.
Read a case of it:

J. A. Murphy, East Fourth street, Maryville, Mo., says: "I suffered considerably from kidney and bladder trouble. In the morning upon arising my back was weak and stiff and there was a dull ache in my loins which at times handicapped me in doin gmy work. Whenever I caught cold it settled in my kidneys, and at such times the kidney secretions became unnatural. I was run down in health when I read about Doan's Kidney Pills and procured a supply at Charles A. Love's drug store. Soon after beginning their use I found relief, and I am now free from kidney trouble. I occasionally take a few doses of Doan's Kidney Pills, finding that they serve to keep my kidneys in a normal condition."

PRESCRIPTION IS 3,500 YEARS OLD

Egyptian Ostracon Bears a Cure For Hysteria.

PAINTED ON POLISHED STONE.

Calls For Fumigation With Powdered Gems—More Modest Remedies Suffice For the Poor—Found In the Metropolitan Museum of Art.

The oldest medical prescription in America, so far as any one knows, has been found in the Metropolitan Museum of Art, New York. It is at least 3,500 years old and is listed in the museum as "Accession No. 988."

"It is written on a small piece of limestone," says the Journal of the American Medical Association, "about 3½ by 3 inches in its present somewhat injured condition, carefully smoothed for the purpose, forming what is called an 'ostracon.'

"The writing was done with a brush and some sort of black ink or paint, for pens did not come into use in Egypt until the Roman time. The substance employed was well adapted for its purpose, for the writing is still quite plain, except near the edges of the stone, where fragmentation has occurred.

"The inscription is in the old cursive hieratic writing, somewhat similar to that of the old Ebers papyrus, which dates from about 1600 B. C. It is written on both sides of the stone with what Egyptologists would probably call typical Egyptian neglect of such details, from above down on the longer measurement of the stone on one side, but across on the other side, as some ladies of the present day, after having written down one sheet of letter paper, turn it over and write crosswise on the back of it.

"Unfortunately it is not known whence this specimen comes. It was noticed in the museum some years ago by Max Mueller, who recognized its medical character and translated the inscription, though rather unsatisfactorily. An effort was then made to find the place of its origin, but the specimen had come with a number of other antique finds of many kinds gathered from various portions of Egypt, and its exact provenience, to use the archaeologic term, could not be determined.

"The prescription as written seems to be a copy, because portions that in the ordinary medical writings of the time are abbreviated are here written out completely, just as copies of prescriptions written out by druggists today have the abbreviations enlarged.

"The ingredients called for in the prescription are mainly precious stones. These were to be ground up, to be used for fumigation. Professor von Oefele, an authority on ancient Egyptian medicine, suspects the case was one of hysteria, though there is no indication of this on the prescription itself.

"Ground precious stones were favorite remedies for hysterical manifestations. They were used for fumigation whenever the ball in the throat, our globus hystericus, was a prominent symptom.

"Indications on the prescription show that various classes of precious and semiprecious stones were used for patients of differing degrees of wealth. For the very wealthy a valuable stone like sapphire was used. For those of moderate wealth a more modest stone would do. For the poor malachite, which was rather common, sufficed. The remedies which cure the nervous affections of ordinary people seem never to have been capable of producing the same effect on the neurotic symptoms of the wealthy, for whom something quite different and, above all, much more costly is required.

"Further study of the specimen will doubtless bring out more interesting details with regard to the medicine of the time."

CRUSADE FOR THE EYES.

Movement For Better Care of the Vision to Be Promoted.

The American Association of Vision, which was organized following agitation by the American Medical association and the Russell Sage foundation to interest the public in care of the eyes, is planning an active campaign of education in many cities. Branches of the association are to be organized in every part of the country, and a day in October, 1913, will be selected, to be known as "Conservation of Vision day," on which, by exhibits and lectures, an opportunity will be given to every person in the country to obtain free instruction regarding the importance of good vision and the methods of preserving it.

The idea has the indorsement of the American Medical association and the American Association of Workers For the Blind, and efforts are being made to obtain the co-operation of the national, state and local governments, the schools and the churches. It is also expected that many of the 100,000 blind persons in the country will help in the organization of local committees.

TRIMBLE TO HEAR G. A. R.

General McElroy Probably Will Withdraw as Candidate.

Rochester, N. Y., Aug. 25.—It is practically assured that Judge Harvey M. Trimble of Illinois will be elected commander in chief of the Grand Army of the Republic today. It is expected that his opponent, General John McElroy, will withdraw before the vote is taken.

The report of a committee, of which Charles G. Burton of Kansas was chairman, exonerated General McElroy of a charge that he had used certain articles in a book from a copyrighted book that had been issued by the late Lieutenant Colonel William Hinman of Ohio.

WILEY MAN IS ELECTED PRESIDENT

Lucius P. Brown Chosen Head of Pure Food Association.

Duluth, Aug. 25.—Lucius P. Brown of Tennessee, a supporter of Dr. H. W. Wiley, was elected president of the National Pure Food association.

A long telegram expressing confidence in Dr. Wiley and promising support of his official acts was sent to President Taft by the Wiley delegates.

A report of the committee revising the constitution was submitted to the convention. The chief changes made by the committee included the disfranchising of the assistants, chemists and others lower down in the employ of the various state departments and the limiting of the right to vote to the executives from all various state departments and the department of agriculture. The subordinates and the assistants are left ex-officio members of the national association, but are deprived of their right to vote or to hold office.

Merritt Young, a farmer near Beresford, S. D., shot his brother, Ross Young, and then killed himself by firing a bullet into his temple.

Mancel de Arriaga, a lawyer, was elected the first president of the republic of Portugal. Arriaga was chosen by the constituent assembly, which was elected by the people last May.

A collar button saved the life of Thomas Junta of New York when he was fired upon in an east side fight. The bullet struck the collar button full and failed to pierce it, although the button was driven an inch into Junta's neck.

During a heavy electric storm at Vaughn, N. M., a wagon driven by W. C. McAdams, seventeen years old, of Dalhart, Tex., and Joe Beattie was struck by lightning, killing McAdams instantly. Beattie was rendered unconscious and may die.

The biggest baby born in the history of New York maternity hospital is reported doing well and gaining rapidly. It was born to Mrs. G. A. Fritzer and weighed fifteen pounds at birth. It is Mrs. Fritzer's seventeenth child since her marriage at the age of seventeen.

Prohibition of the use of dogs wearing bells or other noise producing devices in wild fowl shooting on the Delaware, of automobiles in duck shooting in North Dakota and of guinea pigs in hunting rabbits in Michigan were some of the novel features of the year's game laws legislation.

Eugene Labine, a Marshall county (Minn.) farmer, is harvesting 500 acres of wheat with one machine, working day and night. The binder is run with eight horses, four to a shift, and a headlight is used at night. The night shift of horses stand the work much better than those used in the heat of the day and Labine predicts night binding will become the vogue in the northwest.

CROWD CHEERS AS VICTIM BURNS

Negroes Give Black Man to Mob to Be Burned at Stake.

LYNCHING AT PURCELL, OKLA.

Sheriff and Deputy Who Attempt to Rescue Assailant of Farmer's Wife From Mob Are Overpowered and Locked in Court House.

Purcell, Okla., Aug. 25.—While 3,000 men and women and children stood by, shouting their approval, Peter Carter, a negro, who had been previously captured by three members of his own race and identified as the man who attacked Mrs. Minnie Spraggins, wife of a farmer, was burned to death in the main street of Purcell. Deputy Sheriff Hayes and Under Sheriff Farris, who attempted to rescue the negro from the crowd, were overpowered and locked in the court house.

Mrs. Spraggins was assaulted while alone in her home, one mile south of Purcell. After the deed, the negro set fire to the Spraggins home. Mrs. Spraggins' husband saw the flames while working in the fields and rushed into the house in time to rescue his wife. She declared Carter, who formerly worked on the Spraggins farm, had attacked her. Officers went to Carter's home and arrested him. He was turned over to a constable, but on the way to jail Carter escaped. When it became known the negro was free, farmers of the neighborhood organized and an all-night search was made. The negro was not found.

Highley Henry, a negro janitor, noticed a negro hiding under a boxcar near the railroad station. With the aid of two other negroes, who armed themselves to aid in the search for Mrs. Spraggins' assailant, the negro janitor pulled Carter from beneath the car. He was taken to the main street of Purcell, where a great crowd had gathered.

"Turn that negro over to me," said a tall farmer, who suddenly seemed to assume command of the crowd.

The janitor and his aides obeyed. Carter was taken across the street and in an instant many men and boys were gathering brush and placing it at his feet. At this juncture Deputy Sheriff Hayes and Under Sheriff Farris arrived.

Officers Locked Up.

The sheriff pleaded with the mob, declaring the negro would be given an instant trial; that there would be no chance for him to escape. After the sheriff had concluded the officers were led to the court house, presumably to confer with some of the leaders. As they entered a room in the building the key was turned in the lock and the officers were held prisoners until the negro was dead.

As soon as the sheriff and his assistant had been locked up, the negro was led out and placed on an oil-soaked brush heap, built around a telephone pole. He was tied to the pole and the torch applied. Cheers came from the crowd as the flames licked the victim's face, and men and women in motor cars watched him die. As he was lashed to the pole, the negro shrieked for mercy. After the flames died down the crowd slowly dispersed. The negro's body was burned to a crisp.

BEATTIE ON TRIAL FOR LIFE

Spends Wedding Anniversary in Court Room at Chesterfield.

Chesterfield, Va., Aug. 25.—On the anniversary of his marriage to the woman he is accused of murdering, Henry Clay Beattie, Jr., sat in the stuffy court room and heard seven witnesses called by the commonwealth give testimony on which the prosecution expects to send him to the electric chair.

On the court house lawn, a few feet away, stood the blood-soaked automobile in which the young wife met her death. Beattie calmly inspected the car when it arrived and not once during the proceedings did he show any signs of blanching. Twice during the cross-examination of two detectives he flushed with amazement and appeared to struggle to hold back his laughter.

Ship Lost in Storm; Ten Perish.

Midland, Ont., Aug. 25.—The steamer C. C. Martin, with a crew of ten, probably was lost in the storm on Georgian bay. The barge Albatross, in tow of the Martin, sank during the storm, but its crew reached the lighthouse at the mouth of the French river in a boat. Nothing has been heard from the Martin.

Lorimer Denounces Socialism.

Duquoin, Ill., Aug. 25.—Socialistic doctrines, which he declared presented a grave danger for the government, were denounced here by Senator William Lorimer of Chicago, who was the chief speaker at the twenty-ninth annual Southern Illinois Soldiers' and Sailers' reunion.

Mrs. Dowie to Found Colony.

Zion City, Ill., Aug. 25.—Announcement was made here by "Elder" John Taylor that Mrs. Jane Dowie, widow of the late John Alexander Dowie, founder of Zion City, will found a new colony of the Dowie faith at her summer home, Bon MacDhui, near Whitehall, Mich.

Dear Amy:-

Laura and her husband stayed with us last night. How she praised the furniture in our spare room! You feel like having your friends come to visit you if your home is beautifully furnished throughout, don't you?

When you go to buy furniture, you should not only know that the style is right, but that it is strongly made; and you should go to an honest store where you will know that the price is right.

Always your friend,

Lou

P. S.-The style, quality and price will all be right, and you'll have a big stock to choose from, if you buy your furniture from

SIX MEN DIE IN ELY SHAFT

Explosion Following Fire Catches Them Far Below Surface.

OTHERS SERIOUSLY INJURED.

Accident in the Girioux Consolidated Mines That Costs Heavily in Life and Property—Second Disaster of the Kind—Shaft Still Burning.

Ely, Nev., Aug. 25.—Of ten men who were working at the 1,400-foot level of the new five compartment shaft of the Girioux Consolidated mines when it caught fire, six are dead and four lie at the point of death after passing through flames to reach the surface.

The dead: T. J. Gilmore, shaft boss; John Wilhelmy, Thomas Odolovich, Edward Walsh, John McNulty, Daniel Drea.

Seriously injured: Clarence Gates, Michael Foley, Edward Knox, Peter Harrington.

The men on the 1,400-foot level heard a noise which they thought was caused by an explosion. They looked upward and saw the shaft in flames.

They at once boarded the cage and started for the surface, but encountered the flames at the 1,200-foot level, and stopped.

Wilhelmy and four other men left the cage and started to walk through the 1,200-foot level to the old Alpha shaft, 700 feet away, through which they hoped to climb out of the mine. The five men remaining in the cage gave the signal to hoist and were pulled through the blazing shaft. One was dead when the top was reached and the other four were taken to a hospital.

The work of rescuing the five men remaining in the mine was then attempted through the Alpha shaft. At the 400-foot level Wilhelmy was found dead; Gilmore's body was recovered at the 600-foot level, face downward, at the bulkhead; Odolovich lay dead. Walsh and McNulty were not found and still are in the burning mine.

This is the same mine in which three and a half years ago two men were killed and four others entombed for forty-six days on the 1,000-foot level of the Alpha shaft. The new shaft is one of the largest and deepest in the district and cost $250,000.

Every effort is being made to extinguish the flames, which are still burning.

BAD EGGS IN STORAGE

Rumor Thousands of Cases Were Shipped From Kansas City to Chicago.

Chicago, Aug. 25.—Commissioner of Health Young began an investigation of a charge that large quantities of bad eggs are being put in cold storage here for use later, when the supply of fresh eggs is inadequate to meet the demand.

It is reported here that a large quantity of bad eggs, which had been in cold storage for a long time, had recently been shipped to Kansas City, where they were purchased by dealers at from 75 cents to $1 a case. It is said these eggs were unfit for food when they reached Kansas City.

Dr. Benjamin Perry, chief food inspector of the Chicago health department, said he had received information that a firm in Kansas City made a specialty of buying No. 3 eggs at $1 a case for shipment to the Chicago market and that thousands of eggs unfit for food were now being held in cold storage plants.

GREAT RAILROAD STRIKE POSSIBLE

Heads of Five International Unions to Meet Monday.

MAY INVOLVE HARRIMAN LINES

Railroads Asked to Deal With Big Labor Organizations as Unit—President of Blacksmiths' Union Confers With Kruttschnitt.

Kansas City, Aug. 25.—A conference between the international presidents of five great labor organizations to consider the question of a railroad strike which may involve railroad employees throughout the Harriman system, is to be held in this city next Monday, according to M. F. Ryan, international president of the Brotherhood of Railway Carmen, whose office is here.

"It looks like a big strike, unless the management of the Harriman system consents to confer with union leaders," said Mr. Ryan. Several months ago five big labor organizations decided to cease dealing with railroads separately and banded together. They asked the railroads to treat with them as a unit. Many roads consented, but the Harriman lines refused."

Kruttschnitt Leaves for West.

Chicago, Aug. 25.—A long conference between Vice President Julius Kruttschnitt of the Union and Southern Pacific railroads and J. W. Kline, international president of the blacksmiths' union, was held here without any steps being taken toward a settlement of differences involving 25,000 shopmen employed by the Harriman lines. Both declined to discuss what was done at the conference, but it is said the subject of the railroads' refusal to recognize the federated labor organizations instead of the individual unions was considered at length.

It is said Vice President Kruttschnitt followed instructions of the directors in refusing to yield to the demands of the shopmen.

Shortly after the meeting Mr. Kruttschnitt left for the west, where he will spend two weeks investigating the labor situation. He will visit Omaha, Ogden and San Francisco and other cities, and may confer with labor representatives at San Francisco next Wednesday.

TRIPLE MURDER IN INDIANA

Mr. and Mrs. Richard Lee and Son, Clarence, of Boonville Killed.

Boonville, Ind., Aug. 25.—Richard Lee, Mrs. Lee and their son, Clarence, were killed in their beds with a hammer and their house set on fire.

William Lee, an elder son, was arrested, charged with the murder.

The house was found burning and when the firemen reached it they discovered that all the doors and windows were locked. Breaking down the doors, the firemen found the incinerated bodies of Lee, his wife and younger boy.

Examination of the bodies resulted in the discovery that the skulls of the father and mother had been crushed in with a hammer while they were lying in bed. The seventeen-year-old boy, it was found, had been shot.

William Lee claimed at the time of his arrest that he was awakened by the flames and barely escaped with his life, not having had time to rescue his parents and brother.

It was said that Lee and his father had quarreled frequently over money matters. William, the son who is now in the Warrick county jail, was engaged to wed Miss Mina Taylor of Newburg, daughter of a wealthy farmer.

Insurance policies amounting to $5,000 were found on the lives of Richard Lee, the father, and his son, Clarence, both victims of the tragedy.

Man Who Refused to Join Army Dead.

Atchison, Kan., Aug. 25.—William P. Simmons, a pioneer of Doniphan, who in civil war days was imprisoned because he refused to join the federal army, died here, aged eighty-three. Mr. Simmons several times was driven out of Kansas because of his avowed southern sympathies. Once a rope was cut to hang him. He escaped, fled to St. Joseph and there was committed to prison for refusal to join the Union army. Later he served two years in the Confederate army, returning to Kansas after the war, penniless and friendless. He owned 1,500 acres of land at the time of his death.

$1,500 Prize for Peck of Wheat.

St. Paul, Aug. 25.—A $1,500 silver trophy is the prize for the best peck of wheat exhibited at the Minnesota state fair next month. The winner will be allowed to keep the prize trophy in his possession until the next state fair, and if a farmer wins it three times within five successive years, his name will be engraved on it and it becomes his personal property.

Atwood in Aeroplane Trap.

Nyack, N. Y., Aug. 25.—Unless favorable winds come to his rescue, Harry N. Atwood may not be able to complete his record-breaking aeroplane flight from St. Louis to New York without dismantling his machine and carting it out of a veritable aeroplane trap, into which he unwittingly plunged when making a landing here.

ANNOUNCEMENT

I am now taking orders and delivering winter coals. The prices range from 50 cents a ton up to $10.50 per ton.

Twenty-three years experience in the business of buying and selling coal leads me to think I can come nearer giving you value received for your money than others engaged in the business as a side line. As I give my entire time to the business I should give you better results, cleaner coal and better service. As I sell for cash I should give you more for your money. As I do not hire solicitors to take orders at so much per ton—which you, of course, have to pay—I should sell cheaper. In fact there are so many reasons why you should at least talk to me before placing your order for coal this fall I can not enumerate them here. If you want coal of any description or kind at any price as above, I am anxious to serve you at the right price. Yours truly,

F. G. SHOEMAKER.

DANDRUFF, FALLING HAIR STOPPED

Harmless, Old-Fashioned Remedy Brings Back Color to Gray Hair and Makes It Grow.

How many old-fashioned remedies are being used, which goes to show that it is hard to improve some of our grandmothers' old-time, tried remedies. For instance, for keeping the hair dark, soft and glossy nothing equals our grandmothers' "sage tea." Although, by the addition of sulphur and other ingredients, this old-fashioned brew has been made more effective as a scalp tonic and color restorer.

Nowadays, when our hair comes out or gets faded or gray, instead of going to the garden or garret for herbs and making the "tea" ourselves, we simply go to the nearest drug store and ask for a bottle of Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.
